

IN THE CLAIMS:

Please replace the following claims as rewritten below:

---

23. (Amended) An image transfer device for transferring an image disposed on a medium, the image transfer device comprising:

a controller programmed to operate the image transfer device for performing a number of user selectable image transfer operations; and

a reader operably connected to the controller for reading the image on the medium;

wherein the controller is programmed for registering a size of the image on the medium, and for comparing the size of the image with a predetermined image size in response to user selection of a predetermined image transfer operation, and wherein if the size of the image on the medium is larger than the predetermined image size the controller makes available for selection user selectable features including at least one of a feature for cropping the image, or a feature for reducing the image.

---

REMARKS

This is in response to the Office Action mailed 11/19/02 (Paper No. 1). Claim 23 has been amended above. Claims 1-23 remain pending in this application.
